Our Brands

REVOL

Espiel was founded in 1988. Ever since, the company accomplished not only to establish but also to maintain through the coming decades a strong profile of expertise in the areas of glassware, elegant dinnerware, tableware and eclectic deco objects.

The core idea behind Espiel is to deliver premium quality design products, being both functional & durable delivering an added value to customers' perception.

In this catalogue, there is being presented a wide & representative always-on-stock product range. Furthermore, there is a cumulative inventory of more than 10.000 articles constantly renewed on an annual basis.

Thus, the commitment to this vision, led to the development & maintenance of Espiel brand. The constant effort to achieve an ideal combination of high quality, functionality & aesthetics appeal has always encouraged Espiel in discovering new materials, shapes & design concepts.

All these years, representing outstanding brands and cooperating with exceptional manufacturers & designers worldwide, Espiel established its own unique & diversified style.

Focusing on exceptional customer service by handling every individual requirement through customized solutions gives us the advantage of establishing long - term partnerships.

Moreover, our deep knowledge of our field has praised us with international approval & enhanced our presence to more than 15 countries worldwide.

Seltmann Weiden

OVER 250 YEARS OF EXPERIENCE
in porcelain

CONSTANT INNOVATION
modern forms & elegant designs

FULL CUSTOMISATION
in house

DEEP TECHNOLOGICAL KNOW-HOW
one of Europe's most high-tech manufactories

From raw materials extraction to
development to production
we have **100 % autonomy**
and independence!

20 GOOD REASONS to buy Seltmann Weiden Porcelain

- 1** SELTMANN WEIDEN porcelain is lead-and cadmium-free.
- 2** The body of Seltmann Weiden porcelain is made from the following raw-materials: Caolin (50%), Quartz (25%) and Feldspar (25%).
- 3** Seltmann Weiden porcelain is fired with eco-friendly natural gas. Every piece of white porcelain has to pass two firings. The high firing temperature, the highest one for ceramic products, in conjunction with the raw materials, gives our product its extreme hardness and durability.
- 4** The glaze of Seltmann Weiden porcelain is extremely hard. In practice, this means that neither knives nor other cutlery are able to scratch or otherwise damage the glaze of the porcelain.
- 5** Other ceramic products like, Bone china, Fine China or Vitreous China, attain a lower level of hardness than Seltmann Weiden porcelain. This means they are more fragile than our porcelain.
- 6** The hardness of the body and the glaze makes Seltmann Weiden porcelain extremely durable and suitable for daily use in hotels and restaurants. It is highly resistant against breakage and chipping.
- 7** Due to reasons relating to production and technology the feet of hard porcelain products remain unglazed. At Seltmann Weiden they are polished with diamonds. This ensures the optimal protection of sensitive surfaces.
- 8** The properly polished feet of porcelain articles cannot abrade any metal from metal surfaces like metal tables of shelves, and cannot transfer metal traces to the glaze of a plate on which it is stacked.
- 9** Properly polished feet have another advantage: the plates don't wobble or spin on tables.
- 10** The surface of the center of the plates is absolutely level, there is no heightening or deepening on the center. That means, gravy stays where it is supposed to stay and doesn't run to the middle or outside of the centre.
- 11** Seltmann Weiden porcelain is an excellent heat-storing material. In order to support this particular feature, the bodies of the center of the plates are thicker than the rims.
- 12** Seltmann Weiden porcelain is fully vitrified porcelain which is an absolute dense. That means that it doesn't absorb any liquid even through unglazed parts like the feet – a crucial factor for hygiene.
- 13** The extremely smooth glazed surface of the porcelain does not leave any openings to leftovers or harmful germs.
- 14** Seltmann Weiden porcelain is 100% dishwasher-safe, no matter if it is decorated or undecorated. Even gold decorations are 100% dishwasher safe.
- 15** Seltmann Weiden porcelain is 100% microwave proof. The only exceptions are decorated items which contain metals such as gold or platinum.
- 16** Seltmann Weiden porcelain can stand extremely high temperatures without any damage. Therefore, it can be used in conventional ovens as well as in salamanders, for souffles and au gratin.
- 17** The measurements of Seltmann Weiden porcelain articles will always stay constant, even if the production is made in different years.
- 18** Due to the exclusive production in our plants in Germany we are very flexible and can fulfill the wishes and needs of our customers very quickly. Short-term delivery is no problem.
- 19** Since its foundation, Seltmann Weiden has been 100% family owned. Every generation of the Seltmann family has taken pride in the extremely high quality Seltmann Weiden porcelain. Constant investments in state-of-the-art production technologies guarantee that, now and in the future, the name Seltmann Weiden porcelain is synonymous with the highest quality.
- 20** Seltmann Weiden porcelain is a true 100% Made-in-Germany product of excellent quality. To prove, every article is back stamped with "Made-in-Germany".

SELTMANN EDGE-CHIP WARRANTY

PRODUCTS COVERED:

The Seltmann Edge-Chip Warranty is valid for all round and oval plates, bowls, saucers and platters that have a rolled edge*.

COVER DETAILS:

The products covered will be replaced if their edges chip during the period of cover and only when the products have been used under normal food service conditions comprising proper refrigeration, serving, washing and storage. The warranty applies also when the products are used in an oven but not including pizza ovens.

The warranty does not extend to other types of breakages and the validity of the claim is at the sole discretion of Seltmann Weiden.

PERIOD OF COVER:

Products are covered for three years from the date of invoice of the original order.

CLAIMS: Any claim should be returned by the customer to your dealer / distributor for inspection at the customer's own cost. A copy of the purchase receipt has to be provided, along with information about the chip and the location where the product was used. When required, Seltmann Weiden or our authorised dealers must be able to inspect the location to ascertain the reason for chipping. Claims are only valid when made by the original customer at the original location indicated on the purchase order.

The following collections are with rolled edges:
Coffee-E-Motion, Compact, Coup Fine Dining, Diamant, Imperial, Laguna, Lukullus, Luxor, Mainau, Mandarin, Marienbad, Maxim, Meran, Salzburg, Savoy, Vitalis.

REVOL

Revol porcelain is a family owned-business that has developed a very unique expertise in manufacturing culinary porcelain, since 1768.

Discover some of the secrets of this exceptional longevity...

CELEBRATING 250 YEARS: OLDER AND NEVERTHELESS STILL YOUNG

After 250 years, the factory is still firmly rooted in the undulating green landscape in the Drome. REVOL is proud to be at the top of innovation and design, equipping the most demanding kitchens, whether those of famous chefs or everyday cooks.

Today, we have the same desire to bring out unique talents, bringing our products to the loveliest tables, with kitchenware and other cult objects and design pieces that embody art de vivre. In an era in which the pace of life seems to get faster and faster, Revol swims against the tide with unique products enabling tables that truly stand out from the crowd.

As you know, design itself is never enough. The hospitality industry is built on usability, longevity, and efficiency. Nude understands this and holds these values at a premium. There are specific benefits of using lead free crystal glass, some practical, some aesthetic. Our machine-made crystal offers high durability thanks to its composition and manufacturing process.

Simple is beautiful, pure, clear, transparent.

Simple is useable, clean, uncluttered, practical.

Simple is convenient, reliable, professional.

Simple is all of these things, and also the reason why things are so rarely simple.

NUDE considers actual and specific needs, then refines them to their essence. The final object is thus both easy to understand and work with.

NUDE believes less equals more, that form works best when it meets function. Where everything is appropriate in the right place at the right time, the right delivery for the right need.

- Special composition and manufacturing process rendering **high durability**
- Dishwasher safe up to **5,000*** cycles
- Refractive index **>1,520**
- Lightness **~ 99% ***
- Distinguished by its **superior sound**
- Lead-free / Ultra clear crystal glass

* According to ISO IWA-8 "Tableware giftware jewellery luminaries - Glass clarity - Classification and test method"

Safety Comes First, Resistance and Durability is our aim. We know the importance of safety when it comes to exceptionally busy kitchens of restaurants, bars and cafes. Therefore we put our highest efforts on developing a wide range of tempered glassware for maximum safety, for superior resistance and durability of our products.

Presentation affects the pleasure of drinking as much as the consistency, taste, and aroma of the drink itself. An elegant design first appeals to the eye and prepares the palate for the taste. Glasses specially designed for different types of drinks reveal the true flavor of the drink. Some drinks need a wide-bodied glass to unveil the aroma while some drinks taste better in a thin glass widening towards the rim. Discover a wide range of classic and modern products that take the drinking experience to new heights.

08. GLASSWARE

STACKABLE ITEMS

In a crowded and highly-active kitchen, what you need is to store more kitchenware in less space. Our stackable products designed just for this need are the perfect solution for you.

FULLY TEMPERED

Full tempering process increases the durability of products which are subject to frequent heat changes during cleaning and use throughout the day. In this process the glass products are heated up to the melting point and then cooled in a controlled manner, which results in the shattering of glass into small and harmless pieces in possible breakages, minimizing the risk of injury.

EXTRA RESISTANT

Our products such as plates and bowls manufactured by spinning process are hardened against sudden heat changes and shocks with special technologies.

FINE RIM

Laser technology applied to rim areas of glasses enables us to enhance drinking experience as well as to extend the life cycle of glasses exposed to intensive use.

VIBRANT COLORS, UNIQUE PATTERNS

We invest in the highest technology to make sure that our products reflect the latest trends. Our decoration lines decorate glassware with wonderful colors and breathtaking patterns to keep you always on trend.

RIM TEMPERED

We know that you want to use our products longer. With the rim tempering process, extensive heating and cooling is applied to the rim, thus minimizing the risk of breaking and cracking while increasing the lifespan of products.

The image displays a variety of modern cement bathroom accessories. At the top center is a rectangular tray with a speckled pattern and a soap holder containing a bar of soap with the brand name 'Natura'. To the right is a small, round, light-colored container filled with two rolled-up dark towels. Below these are several other items: a long, narrow tray with a speckled pattern holding two small glass bottles with gold caps; a round tray with a speckled pattern holding a small potted plant; a dark grey tray with a circular lid; and a long, narrow tray with a ribbed pattern. On the left side, there is a vertical tray with several circular compartments and a small, round, dark grey container. In the bottom right corner, there are two rectangular sponges with a porous texture.

Wish List (Requesting an offer on-line)

In order to facilitate our clientele, we have already installed the "Wish List" application on our website. In particular, the on-line opportunity is given to upload their offer request by:

- adding the selected products in wish-list, by simply clicking on the respective button under each product.
- viewing their photo simultaneously, dimensions and expected time of delivery (in case the product is not available yet) & finally
- indicating the desired quantities per product code.

Afterwards they submit it to one of our partners who in turn sent it back completed as an offer with prices and exact date of delivery.

The actual usability of the Wish List is the dynamic stock-control in real time, as well as adding more products SKUs from Espiel's continuously enriched collection, that are not included in this catalogue.

You are welcome to visit our website www.espiel.gr, where you shall find more than 10000 extra products SKUs, which are not being included in this catalogue.
